

## NOTICE

### BASIC INFORMATION

Position available within the research project entitled: “Advancing ground-breaking research in regional growth and development theories, through a resilience approach: towards a convergent, balanced and sustainable European Union”, project number 3/2018 (code PN-III-P4-ID-PCCF-2016-0166)

**Title\*:** *Research assistant*

**Offer Description\*:** Conduct research in the area of resilience of cities and regions in the EU – main responsibilities would involve the construction of a resilience index, identification of similar indexes in the literature, collection of economic data that will be included in the index, analysis of regional trends and processes such as the structure of the regional economy, migration, creative industries and innovation, education stock of the population, etc. We are looking for candidates with experience/background in interdisciplinary research, given the fact that resilience is at the intersection of multiple science fields such as economics, political sciences, public administration, etc.
